Re: Gerald Shvartsman
D.O.B. Aug. 20, 1977

Sept 13, 2024

Hon. Lewis J. Linan ;

Mr. Shvartsman is presently under my medical care for a newly diagnosed Crohn's Disease. He will be requiring IV (intravenous therapy) with Remicade at 0wk, 2wk, 6wks, and then every 8 weeks. This therapy, a "biologic" immunosuppression therapy, requires close monitoring, up to date vaccinations, and limited exposure to infectious disease... for which he will be prone to contact. Ideally he should remain out of a prison environment. For any questions please do not hesitate to contact me.

Michael Bloom
